

## Purkal Bulletin - June 2017

The School remained closed for summer vacations from 1st June to the 15th of June.

Our girl Mahi Pundir aged 8 of class 3 met with a severe fire accident but has since been discharged from hospital after five major surgeries. She has improved a lot and we do hope that she will join her classes in the next few days. Her very expensive treatment was facilitated by a generous plastic surgeon Dr. Yogi who did it all free of professional charges and the cooperation of many others. We had generous donations that helped us meet almost the entire costs.

A group of 55 young kids teachers from our Early childhood center went to see a Circus at Dehradun. The small kids particularly appreciated the huge hippopotamus.

Our newly constructed Dining hall is now in use. The new Junior Library is also now in operation.
