

Bulletin - March 2018

Students of classes 1 and 2 were taken to visit an ice-cream factory and the Aanchal dairy. They understand how an ice cream is made. They also saw the milk processing at the Dairy.

The whole month was occupied with the SA2 examinations held for different classes. The respective batches of Classes 10 and 12 appeared for their Board Examination. The students seemed confident and most of the students of Class 12 will be now be preparing for their different entrance tests to enter their chosen careers. They are be being provided with appropriate counselling.

SBI Funds Management Pvt. Limited donated us a 52-seater school bus and a 9 seater Mahindra Bolero. This will largely solve our problem of commuting of children from their villages to school.
